

Patient Recruitment Notice to Clinical Outcome Measures Trial at the University of Chicago

Friedreich's Ataxia Research
University of Chicago Medical Center-Chicago, Illinois

Principal Investigator University of Chicago

Christopher M. Gomez, MD, PhD
Professor & Chair
Department of Neurology

Location of Research

Ataxia Center-University of Chicago Medical Center
Duchossios Center for Advanced Medicine
Department of Neurology
5758 South Maryland Avenue
Chicago, Illinois 60637

Title

Clinical Outcome Measures in Friedreich's Ataxia

Purpose

The purpose of this study is:

- To advance clinical care, research and treatments in Friedreich's Ataxia
- To develop and document the usefulness of clinical outcome measures
- To collect clinical information on patients
- To maintain a DNA registry for future research

You may be eligible to take part if:

- Have a genetically confirmed diagnosis of Friedreich's Ataxia
- You are between the age 7 and 80 years of age
- Parental/guardian permission when applicable

Benefits of participation

- Study will contribute to the advancement in the understanding and future treatments of FA

Estimated time commitment

- Yearly study visits
