

Friedreich's Ataxia Study Announcement

The University of South Florida is studying changes in Friedreich's ataxia over time and is in need of volunteers. The study involves 4 visits that are each 6 months apart. Testing at each visit will last about 4 hours.

To qualify, you must be:

- 12-50 years old
- Have genetic confirmation of your diagnosis
- Be able to walk at least 30 feet (with a walker or other assistance is ok).

If you would like more information, please contact Amber Miller at USF: 813-974-5909.
